OBJECTIVES

Motivated and detail-oriented 25-year-old Computer Engineering student with hands-on experience as a Junior Developer. Seeking a challenging position in a dynamic company where I can leverage my technical expertise, collaborate with a talented team, and drive impactful solutions. Passionate about problem-solving, continuous learning, and contributing to innovative projects that support both personal and organizational growth.

PROFESSIONAL EXPERIENCE

Salesforce Junior Developer

JFOX IT PARTNERS

2023 - Current

- Contributed to multiple projects involving Apex, including system integrations, trigger development, and custom logic implementation. Worked closely with Lightning Web Components (LWC) for enhanced functionality.
- Developed Lightning Web Components for Salesforce projects, integrating external systems and creating custom solutions within the Salesforce ecosystem. Built a full course catalog website on Salesforce Experience Cloud, leveraging LWC for dynamic content rendering.

Internship Salesforce Developer

JFOX IT PARTNERS

2023 - 2024

This was my first internship as a Salesforce developer, where I actively contributed to the development of Apex triggers, classes, and Lightning Web Components (LWC). I also gained hands-on experience with platform configurations and customization. Due to my rapid skill development, proactiveness, and dedication, I was promoted to the role of Junior Developer within a short timeframe.

Full Stack Developer

Junior Company - Struct-EJ

2021 - 2023

- Developed backend systems for websites and e-commerce platforms using Ruby on Rails. Gained hands-on experience with MVC architecture, database management, and API integrations.
- Built responsive and dynamic front-end interfaces for Ruby on Rails projects using React. Utilized Styled Components for styling and ensured seamless user experiences across devices.
